Salim Baktash

Software Engineer

About

A passionate developer focused on creating innovative solutions to solve real-world problems. Specialized in web and mobile application development with expertise in both frontend and backend technologies.

Skills

Languages & Technologies

JavaScript · TypeScript · Python · Java · C++ · C · Go · PHP · Rust · Dart · HTML · CSS

Frameworks / Libraries / Tools

React.js · Next.js · Bootstrap · TailwindCSS · MaterialUI · MantineUI · DaisyUI · React Native · Flutter · Electron.js · Node.js · Nest.js · FastAPI · Django · Flask · Spring Boot

Databases & DevOps / Infrastructure

MongoDB · PostgreSQL · MySQL · SQLite3 · Redis · Oracle · ClickHouse · Docker · Podman · Kubernetes · Terraform · HashiCorp Vault · AWS · GCP · Firebase · Supabase · Git · GitHub · GitLab · Linux · Kafka · Jupyter · NumPy · Pandas · Matplotlib · PyTorch · TensorFlow · Scikit-learn · Keras · OpenCV · Seaborn · Plotly · NLTK · spaCy · HuggingFace

---

Experience

Backend Developer — Netlinks Inc (Oct 2024 – Present)

- Built scalable backend services.
- I worked with cloud technologies.
- Integrated third-party APIs.

Full Stack Developer — Listoli LLC (Jan 2024 – Jun 2024)

- Developed interactive UI components.
- Performance optimizations on both frontend and backend.
- Built scalable backend services and integrated third-party APIs.

Software Development Instructor — Top In Town Technology (2021–2023, Jun 2024 – Oct 2024)

- Designed and delivered software development courses.
- Provided hands-on training in multiple programming languages and frameworks.
- Mentored students, developed instructional materials and real-world projects, and assessed student progress.

Education

High School Degree — Azad Khan High School (2011 – 2022)
Self-Study: Programming & Development (2016 – Present) — continuous learning and skills enhancement.
